

Changelog:

1. v1.1.0 (Alpha 1) [~7/20/25]: Basic RNG base, no ad-ons. Boring with no money
2. v1.2.0 (Alpha 2): Keeps the RNG base, adds new sprite costume, more organized, more bugs. Adds money (monee)
 - 1.2.4: Fixes most bugs.
3. v1.3.0, 3: Adds better RNG indexing used by many other projects, adds many more rare monkes, boring, no cooldown reducer, special effects, etc.
 - v1.3.3: Fixes most bugs, some are left
4. v1.4.0, 4: Adds cooldown reducer, monke effects, and better monke costumes as well as costume selector.
 - v1.4.2: Fixes almost all bugs from past versions
 - v1.4.4: chomps more bugs down
5. v1.5.0, 5: Fixes indexing issues, adds better rarities, changes up things, adds an early auto roll feature.
6. V1.6: unknown. . .
7. v1.7, 7: adds saving!
 - v1.7.4: Fixes many problems with the saving feature.
 - v1.7.7: Fixes many more problems with saving. Adds a saving sprite.
 - v1.7.8: Fixes indexing for monke lists.
 - v1.7.15: Makes the game more user-friendly, adds 1 new rare monke. Fixes saving efficiency problems
 - v1.7.16: Simpler controls.
 - v1.7.17: adds new monke using new system.
8. v1.8, 8: adds one new sprite, update was created mainly for fixing many bugs
 - v1.8.0: adds a common monke reducer allowing users not to see that *pesky* common monke as much.

- v1.8.5: fixes many errors with saving specifically the “redo” block and adds new variables included with the save code. So if your old save code doesn’t work email it to me for me to fix it or deal with it.
- v1.8.6&7: adds new sprite, fixes a couple bugs.
- 1.8.9: Fixes overlapping with saving sprite
- 1.8.11-12: adds monke effects to certain monkeys (beta)
- 1.8.13: Makes costume switcher switch monke names as well.
